Foreword

WE, the class of nineteen hundred and twenty-six, present this edition of the Cauldron at the end of our college career

> "When the hurlyburly's done, When the battle's lost and won,"

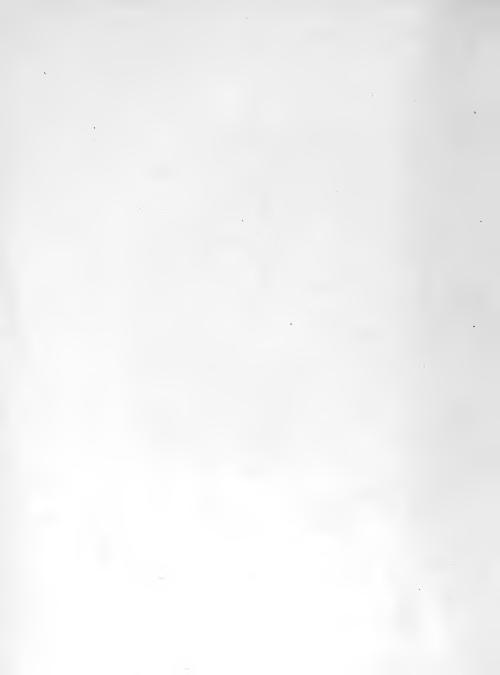

in memory of the good old days, the many twinkling smiles, and lasting friendships of Northeastern years.

To

Emil Anton Gramstorff

In appreciation of four years' generous service, unfailing support, and friendship,
The Class of Nineteen Hundred and Twenty-six dedicates this book.

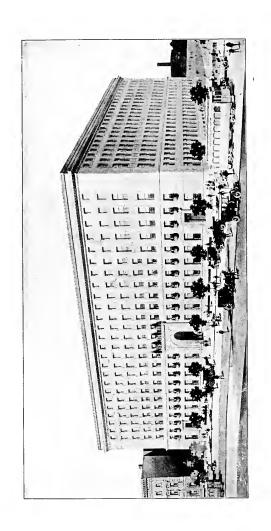

FRANK PALMER SPEARE, M.H., LL.B.

Frank Palmer Speare, President of Northeastern University, was educated in the Boston Public Schools, Chauncy Hall School, Bridgewater State Normal School and Harvard University. Upon graduation, he entered High School principalship. Later, in 1895, he was appointed Director of Education for the Boston Young Men's Christian Association, which position he held until the department was incorporated as Northeastern College in 1916, at which time he was elected president. He established the Co-Operative Engineering School in 1909.

He is a member of numerous important educational and fraternal organizations.

"Ed" is a typical college boy with a million dollar smile that makes him popular with his classmates and more than popular with the girls. In the musical comedies he made such a good girl that more than one fellow forgot himself and tried to date "Ed" up for the field day. Good luck, East Saugus, and may you always be the good fellow that we remember you to be.

It is men like Dana that make Northeastern.

"Soup," the crucial test for Engineering Conference speakers and sweaters! If Soup comes in looking like a thug, we know he is going to put in a good day's work, but if Soup comes in looking like "Ruddy Vaselino" we know he is going to put in a good night with a teacher. Soup is a hard working boy, but we understand he has not yet mastered the "Sherman System of Logarithmic Equations."

Walter distinguished himself in his first year when he delivered such eloquent speeches that we all thought that Daniel Webster had come to life.

Walter seems to be quiet while around with the boys, but once he is in company with the ladies his erstwhile quiet nature changes to that of an experienced sheik. Another Dr. Jekyll.

A regular he-man from the wide open spaces — that's Arthur Brisbane. Strong as a bull and as gentle as a lamb (?). Does he know his stuff? We'll say he does. He knows the last word about chemistry, mathematics, basketball and dancing. He's a great ladies' man, too. There are very few ladies in Chelsea who do not know Arthur Brisbane. It is rumored that he is to go to Australia to take charge of a large plant. We hope not. He's too good to lose.

Barnes's personally conducted tours from Melrose to Spot Pond are very popular among the '26 men.

Our prophecy is that Lester's name will appear in "Who's Who" before 1930.

Ben is a likable chap who takes much pleasure in making pretty pictures in our design courses. His "I told you so," in pointing out the finer details in drawing, has caused many dark murmurings from fellow classmates. It is said that every time Benny goes past the Pawtucket Water Works he remarks that he must look at his Thesis. Such work surely deserves praise.

"Ig" is the "Unknown Wrestler!" The marvelous way in which Iggy has lived up to his name as an exponent of that famous art, "catch as catch-can," has heen a standing joke among us during these four arduous years, but behind all of our fun has been a thankfulness that Ig left his native heath and came to sojourn with us for a while. Not withstanding the fact that he soon found out that he was not cut out for a champion, he stuck to the sport and now has the honor of managing a really successful wrestling team.

Our Springfield Representative. That sparsely populated town in the western part of this, our Commonwealth, is to Tony the acme of perfection, a veritable Utopia. His undying affection for his home town has colored all of his activities at Northeastern. That word, color, brings to mind the fact that "Toe-Knee" is our class artist. All these picturesque cartoons so prominently displayed on banjos, ukes, and slickers speak well for Tony's ability, but his genius is questioned by that student of Rhinehart's Plain Lettering, Professor Ingalls.

Plymouth High School, 1922

There is a great difference of opinion about George Porter; we understand the people of Plymouth think he dresses the way he does because he goes to Northeastern, but the consensus of opinion about the campus (?) seems to be that it is because he comes from Plymouth. When G. P. isn't laughing or making wise cracks, he's singing, and when he stops singing, he once more overflows with spontaneous wit. We predict a future for George, as he will be a great help around the house, due to his laboratory experience washing beakers, etc.

Electrical

Springfield Technical High School, 1920

We wonder what "Jack" is going to do next year when he won't be able to hold one of his daily "staff meetings." However, we wouldn't be a bit surprised to see him win a loving cup and move to Pennsylvania. June sure has its effects on the poor

But, Jack, give us a little notice before the loving cup has to be purchased.

MYRON EDWARD WHEATON

April 25, 1904

Washington Depot, Connecticut Electrical

Washington High School, 1922

Myron is an importation from the Nutmeg State, and throughout his four years with us has flavored the daily grind with his sunny personality. Myron has been a consistent plugger in everything from studies to part time jobs, and as one of the founders of the Dramatic Club has been an ardent supporter of this activity.

Leominster High School, 1922

The fact that "Jack" has spent only half of his time in Boston has prevented us from seeing him as much as we would like, but it has not prevented us from recognizing his good qualities.

He has been very successful in his studies as well as in activities, and his election to the presidency of the Student Council is proof that he commands the good will and respect of his companions.

The fine combination of personality and knowledge which he

possesses will certainly serve him well in the future.

Civil Boston English High School, 1922

Collegiate! This one word describes "Herbie" to a T. You know, baggy britch, tricky feet on the dance floor and fraternizing ways, that's our Herbie. He is one of the few musicians represents the civil section, having antagonized a banjo for two years. Herb has specialized in fraternity life for the last two years, but he's quite democratic and treats us all as if we were his equals socially

Banjo Club (3) (4); CAULDRON Board; B. S. C. E.; Chairman Engineering Conference.

ROGER GUSTAVUS WITHERELL

487 Tremont Street Taunton, Massachusetts

Civil Taunton High School, 1921

"What Ho! What is this we see strolling down the avenue? Is it General Pershing or a West Point cadet?" No, my friend, the military looking youth is none other than Roger Witherell, the class authority on army life. Because of his kind, congenial, and hospitable ways, Roger has won for himself many close friends during his stay with us.

Baseball (1) (2); Vice Chairman N. U. S. of B. S. C. E. 1925-1926.

CARL ADAM WOLFRUM

97 Bragdon Street Roxbury, Massachusetts

Civil
Mechanic Arts High School, 1922

Well, Well! Here's the strawberry blond from Roxbury. "Red" was a member of our first soccer team and for three years he played a sterling game at the right outside forward position. If "Red's" eye was as good on the bowling alleys as it was on the soccer field, few of us would ever have boyled him for stickers.

Soccer (2) (3) (4); Mechanic Arts High Club (2) (3) (4), Secretary Mechanic Arts High Club (3), President Mechanic Arts High Club (4), Secretary Student Council (4), Secretary Student Council (4); Northeastern University Section B. For the last year or so "Worksie" has been wrestling with a motorcycle but we regret to say that it at last got the best of him — now it's a long walk down by Lake Williams.

Bozo's arguments were always getting him someplace, either in "Dutch" or elsewhere. He has successfully learned the art of drilling holes in cement ceilings at the Dennison Mfg. Co. and we, therefore, feel sure that as a success in life, he is one sure bet.

We wonder if Jake is still in short pants or whether he is collegiate. He doesn't say enough for us to ascertain which, but the fact that he has been a Frat man for four years should stop all queries. Jake's slow start and strong finish in activities is an indication of his certain success in the cold, crule world. Assistant Manager Baseball (2): Tech Staff, Business Depart-

COLLEGE YEAR

The College Pear

It takes but a little time for memories of past events to become dim, even when they made a strong impression on our minds originally. As we look back even one year in our college life we find it difficult to recall the details of happenings with which we were intimately associated.

The "College Year" is published with the hope that it may serve to keep fresh your pleasant memories of episodes connected with your college career, memories which will come to mean more and more to you as the years slip by and throw a magic mist over the past, which is gone forever.

JUNIOR PROM

On the evening of April 7 the Juniors laid aside their books and slide-rules to attend probably the best Junior Promenade ever held by the students of Northeastern. Dok Eisenbourg's Sinfonians had been spirited away for the gala occasion and they certainly lived up to their reputation as the best jazz team in New England. In fact, the thing most vividly remembered by the lucky invitation holders is the incomparable brand of syncopation turned out by the Sinfonians. The first portion of the evening was taken up by a formal reception followed at quarter past ten by the first of twenty-four dances. The favors, a silver vanity case for the ladies and silver watch chains for their manly partners, both with the raised seal of the University, met with universal favor. Luncheon was served at midnight and the dancing resumed, lasting until four o'clock. Conducted as it was in all respects upon the Northeastern standard of what a Prom should be, it was a superb affair and so will be remembered in the minds of all those attending.

POPS

On the evening of May 10, 1925, the annual Northeastern Night at "Pops" concert was celebrated. The committee arranged for the orchestra to play "Northeastern," an original march composed by our well-known friend and advisor, President Speare. Needless to say, the selection was received with hearty applause by those present.

In all ways it was the best "Pops" night in history, and we look forward to its repetition in years to come.

PUBLIC SPEAKING

Probably the stiffest and most closely contested of all the public speaking contests of the University was staged in Jordan Hall, May 15, 1925. It was indeed a difficult proposition to select the winners from the six participants. However, the following decisions were finally reached: First prize, Henry C. Jones; second prize, William C.

White; third prize, Louis F. Merrill. Fourth prizes were awarded to: F. E. Graham, B. J. Pfeferholtz, and E. E. Haskins.

Dean Ell presented the prizes of \$50, \$25, \$10, and three \$5 prizes. The judges were: Maurice Wainwright a co-operative firm representative, Mr. Flinner of the Huntington School, and Mr. Neunen of the School of Commerce and Finance.

TECH SENDS REPRESENTATIVES TO PRINCETON

As members of the Eastern Intercollegiate Newspaper Association, *The Northeastern Tech* sent three representatives to the convention of that organization held at Princeton May 8 and 9, 1925. Those representing the publication were R. E. Bacon, '25, business manager; E. E. Haskins, '25, editor-in-chief; and J. W. Maddocks, '26, managing editor.

TRACK TEAM BANQUET

The annual track team banquet was held at the Hotel Buckminster on the evening of May 23. After the repast had been consumed and the cigars lighted up, the toastmaster, H. C. Martinelli, '25, introduced Coach Zeller who complimented the men on the good showing they had made during the past season. The next speakers were Dean T. F. Garner, of the Business Administration School, and Graduate Manager of Athletics, E. S. Parsons.

Professor Nightingale as chairman of the Faculty Committee on Athletics announced the names of the men to whom letters were to be awarded. The following names were announced: J. Audano, '28, B. A.; G. O. Bond, '28, B.A.; A. M. Breive, '27; E. R. Christenson, '25; L. P. Davis, '25; C. F. DeVarney, '27; P. W. Hamilton, '28; C. W. Hunt, '27; W. F. Kobera, '28, B.A.; R. S. Murphy, '27; W. P. Plett, '27; W. P. Raffone, '27; N. A. Shenk, '25; R. E. Slocombe, '27; R. J. Sullivan, '26; G. R. Tatton, '28, B.A.; A. M. Zak, '25; and H. C. Martinelli, '25, Manager.

The letter men retired and returned with the announcement that A. M. Breive was their unanimous choice for captaincy for the next school year. E. F. Davidson, the retiring captain, and Breive, the newly elected captain, each made a few remarks. R. E. Slocombe, '27, spoke to the new letter men about the Varsity Club. About 10 p.m. the gathering broke up after singing "Laud Northeastern."

MUSICAL CLUBS BANQUET

The second annual banquet of the Combined Musical and Dramatic Clubs was held on the evening of May 28, 1925, at the Hotel Buckminster, about eighty members attending. Dean Ell and the various faculty advisors of the clubs were also present.

Charms were presented by Dean Ell to prominent graduating members of the clubs. A business meeting for the election of the leaders and managers for the following year took place after the banquet.

BASEBALL BANQUET

The annual baseball banquet was held at Hotel Buckminster on June 3, 1925. Dean Ell praised the spirit of Northeastern athletes and cited the advantages in coaching, equipment, and material which we have over other colleges. The next speaker, Dean Gardiner of the B. A. School, outlined the benefits derived from athletics. Coach Bond next criticized the good and bad points of the team and expressed his hopes of developing a winning team next year. Graduate Manager Parsons spoke from a manager's point of view and outlined the difficulties of the work.

Later in the evening the letter men retired and elected C. M. Freeland '27, to the captaincy of the 1926 team. C. T. Day was appointed manager. Manager Burke presented athletic advisor Mr. Fenno with a gold bat and retiring Captain Watson with a ball. Following this the letters and numerals were awarded.

FIELD DAY

Northeastern Engineers observed their 15th annual field day celebration at Riverside on June 6, 1925. Sixteen hundred undergraduates, alumni, faculty, and guests were present. The torrid weather failed to put a damper on the events of the day and as the mercury hit the 100 mark, the cool waters of the Charles was thickly populated. In the morning promptly at 10 o'clock the tennis tournament started and the students witnessed very snappy games with many a brilliant play.

The 110th Cavalry Band featured throughout the day. Early after lunch the flag ceremony was held and President Thomas Lynch of the Senior Class, with an excellent description of what was expected of the Class of 1928, handed down the senior colors to President Wesley S. Pattison, of the Freshman class. Ralph Slocombe, president of the Sagitta Society, then announced the names of the men chosen for that honorary body for the coming year and displayed the emblem of the organization.

With a musical accompaniment by the Band, the students and their friends assembled for the field day picture, following which they all assembled around the swimming pool to watch the water events. After a hard, close battle the canoe-tilt title went to Alexander and Lacy, with Ross and Katziff close seconds. The tub race was won by Davidson, first, and Corsano, second. A new feature presented was the Inter-fraternity canoe race which was won for Phi Gamma Pi. The class of '26 took the inter-class canoe race.

The ball game between the Faculty and Seniors proved to be quite an exhibit of baseball skill. The seniors, however, triumphed over their time-honored enemies by a score of 27 to 9. The ancient and honorable "Joe-Joe" battery functioned very effectively for the faculty.

With the coming of evening dancing and canoeing came into their own and many a student observed the "No Parking" signs. Everyone said that it was the best field day ever held and that the committee and the weather man deserve much credit.

ENTER-1929

On Monday, September 14, 1925, there was another record registration of students in the Engineering School which taxed the capacity of the office organization and gave the faculty the busiest registration day in its history.

The total registration for Divisions A and AA was 611, 263 of these being freshmen, and 73 seniors. It was estimated that the total enrollment of the Engineering School would exceed 1200.

FRESHMAN RECEPTION

The senior class gave the freshmen a start in their social life at college by tendering them a reception in Bates Hall, on the evening of September 18, 1925. Smokes and refreshments were plentifully provided and leading lights of the school spoke to the new men.

THE RUSH

By strength and by strategy, the fighting sophomore class defcated their rivals of '29 by the score of 185 to 115 points in the Division A Freshman-Sophomore Rush. Twice the outcome hung in the balance, once when the sophs gathered about the greased pole after the yearlings had swept everything before them in the six-legged race, and again when teams representing the two groups faced each other for the final tug-of-war; but the sophs came through both times.

In the pole rush, the grease-smeared second-year men hoisted C. A. Ray '28, up to the pole. The freshmen fell into their trap and worked manfully to raise the soph decoy toward his own colors until he pushed a handful of heavy grease into the face of the yearling "mascot," thus disclosing the trick. The enraged frosh then strove to repair their error in the time left, but without success.

The freshmen took first and second places in both of the preliminary six-legged races, making it unnecessary to run the finals. The first, second, and third places in this gave the freshmen 50 points. In the relay obstacle race, the sophomores finished first and third, gaining 35 points to 15 for the freshmen. The sophomores won the pole rush which gained them 100 points. Each class was victorious in one of the two tugs-of-war, giving them 50 points apiece. The win of the sophomores in the last one decided the outcome.

SENIOR DANCE

The Seniors held the first dance of the year on October 9, 1925. "Al" Comstock's Victorians furnished the music par excellence. The dance took place in the Tent, the "silk and satin ballroom" of Back Bay, and was pronounced a perfectly conducted affair by all those present. The feature of the evening was an exhibition of the Charleston which was then in its infancy.

JUNIOR BANQUET

On the evening of November 21, the Hotel Vendome was the scene of one of the most lively banquets ever given by Northeastern men. The menu consisted of many appetizing dishes, with steak as the main course.

Interesting talks were given by the faculty members present, which included Professor H. W. Melvin, M. J. Schlagenhauf, and H. S. Winkfield. After dinner, smokes were enjoyed while the entertainers gave a very interesting program of dances and songs. The Social Committee deserves much credit for handling the affair in such a successful manner.

THE ALUMNI BANQUET

The annual Alumni Banquet was held Tuesday, December 1, in the American Honse at 6.30 p.m. Warm friendships melted the returning alumni into groups, stirring up reminiscences, laughter and earnest conversation which was indeed pleasant to observe.

The principal speakers were Dean Ell, Professors Puglsey, Nightingale, Melvin and Spear, who voiced their sentiments in an expression of gratitude.

TECH SMOKER

Presentation of the journalistic Quill to four seniors was one of the features of a mid-winter smoker of the *Tech* staff. Remarks appropriate to the occasion were made by members of the faculty and outside guests, including Mr. H. R. Ratcliffe, school and college editor of *The Boston Transcript*, and Mr. S. J. Wrightson of the Boston Linotype Print, printers of *The Tech*.

Owing to the fact that only ten wearers of the Quill are possible in the School of Engineering at one time, it was necessary to limit the number of awards to seniors. The four staff members receiving publication emblems were: E. F. Gregg, J. Nicol, D. C. Otis, and E. A. Sanderson.

SENATE ALUMNI BANQUET

The second annual banquet of the Northeastern Senate was held for the alumni on January 14 in Room 100 of the Y. M. C. A. The Honorary Society was represented by members from each class since its organization in 1921.

Each of the older alumni was called upon to relate some of his experiences after leaving the school. These short stories were, in many cases, flavored with serious and some rather humorous occurrences.

INTERCLASS MEET

The sophomore class won an overwhelming victory in the November Interclass Track Meet, scoring 49 2-3 points against 34 1-3, 32 1-2, and 1-2 points for the freshmen, juniors, and seniors respectively.

Plenty of new material was found in the class of 1929, and with the victorious class of 1928, Northeastern is fortunate in having promise of one of the best college track teams in the East.

INTER-FRATERNITY SMOKER

In order to start the New Year right, the fraternity men of the school held a smoker in 18-H under the auspices of the Inter-fraternity Council.

Under the influence of their New Year resolutions and free from all troublesome examinations, the fraternity men commenced their first smoker of the year, proceeding to enjoy themselves to their hearts' content. As usual, the refreshment consisted of cider, "sinkers," cigars, cigarettes, etc. The entertainment consisted of both outside and local talent.

WINTER CONCERT

Paul Revere Hall was again the scene of the annual Mid-Winter Concert and Dance given by the Combined Musical Clubs on January 15, 1926.

Selections were given by the Concert Orchestra, Glee Club, Banjo Club, and Bacchanalians: the program being well balanced and excellently rendered.

This event marked another step in the advancement of the Musical Clubs in quality as well as in numbers.

About five hundred were present, remaining to enjoy the dancing which continued until midnight.

ENTER — DIVISION B

On February 1, 1926, the University again assumed the tinge of youth with the reappearance of new men to keep the sophomores busy. Last Monday was by far the busiest registration day on record at Northeastern. Registration was completed at an early hour, due to the simplification of the once complicated registration system.

A total of 295 Freshmen were registrated. The Electricals lead with 107, and the Civils, Mechanicals, Chemicals and Administrative followed with 77, 49, 43 and 19 respectively. This increase shows the need of a separate school and new buildings to handle the increasing number of men.

DIVISION B RECEPTION

On the evening of February 9, the entering class of freshmen received their last formal welcome in Bates Hall. The evening opened with the singing of the Victory Song. Professor Spear, the first speaker of the evening, talked about the general activities and the organization of the class. He was followed by Professor Ingalls who spoke of the honorary body, the Senate. The presidents of both Divisions A and B sophomores gave a short address. Mr. Estes of the English Department spoke of the need of men for the Tech, and was followed by Professor Winkfield who spoke

about the coming show. While the refreshments were being served, Fellows and Bacon made their banjos stand up and talk, and Kalstein and Smith of the class of '29 showed some clever stepping.

BROADCAST

Much credit is due the members of the Musical Clubs who braved the worst storm in years to broadcast on February 4, 1926, from WNAC, the Shepard Stores Studio. Solo numbers and selections by the Band, Glee Club, Banjo Club, and Bacchanalians were sent out to thousands of snow-bound listeners.

FORMATION OF N. U. NEWS

As a result of student conferences which have been held for the past three weeks, the aim of a combination of activities on a University basis, rather than being fostered by separate schools, is culminated in the joining of *The Northeastern Tech* and *The Bulletin*. From now on the two papers will work in conjunction with one another for the weekly publication of *The Northeastern News*. The two former papers are now non-existent. As an immediate result of the union the size of the paper has been increased. Joseph W. Maddocks '26, formerly editor-in-chief of *The Tech*, is editor-in-chief of the new publication. Gordon J. Stewart, previously editor-in-chief of *The Bulletin*, is the next ranking head of the paper, being assistant editor-in-chief. With the exception of a few other changes the staff of *The News* will be practically the same as those of the two separate papers. At the beginning of next year an entirely different style of makeup will prevail.

SENIOR THEATRE PARTY

On Friday evening, March 5, the Seniors entertained a theater party of about three hundred guests at the Shubert where Mitzi in "Naughty Riquette" was seen. Reservations included eight boxes and the front orchestra circle. Among the guests were Professor and Mrs. S. A. Strahan, and Professor E. A. Gramstorf. After the show the party broke up into groups, each going its own way according to inclination.

BASKETBALL

Presenting one of the fastest teams ever to wear the Northeastern uniform, the basketball five succeeded in winning eight of the fifteen games against some of the best college teams of the East.

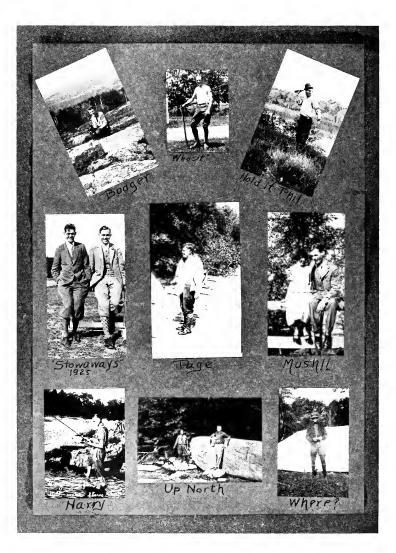

Among this year's victories were those over M. I. T., Clark University, Rhode Island State, and Lowell Textile.

With all the regulars and the subs returning next year, Coach Bond promises a banner schedule and many victories for the 1927 team.

RELAY TEAM

The relay team turned in victories over Tufts, W. P. I., University of Maine, Boston University, and Bates. A new school record was hung up by the speedy quartet in the race against the Bates four.

DRAMATIC CLUB AND BAND CONCERT

On Friday evening, February 26, Bates Hall was the scene of a joint entertainment by the Northeastern University Band and the Dramatic Club. The evening was opened by selections by the Band and a trumpet solo by W. R. Sherman accompanied by Mr. F. W. Holmes. Following this were two plays, "Spooks and Spirits" and "Squaring It with the Boss." Music for dancing which followed the plays was furnished by the Northeastern Harmonizers led by F. Todino '28. One of the features of the evening was an interpretation of the "Charleston" by Charles Johnson '29.

DIVISION B RUSH

One of the greatest upsets in the history of the University occurred on March 16 when the sophomores under the able leadership of W. S. Pattison overwhelmed the yearlings, led by H. W. Jewell, by a margin of a hundred points. The annual mid-year rush itself brought to a climax one of the busiest and most exciting rush-days seen on the campus in many a year. Kidnapping and hog-tying, by both classes, on Huntington Avenue, the morning of the rush, were common occurrences.

Results: Six-legged Race, won by Sophomores.

Tug-of-War, won by Freshmen.
Obstacle Race, won by Sophomores.
Push-ball Contest, won by Sophomores.
Relay Race, won by Freshmen.

MUSICAL COMEDY

"The Rajah of Kashmir," the third annual musical comedy in the history of the Engineering School, and the first produced by the students as a University affair, was given in the Fine Arts Theatre on the evenings of April 9 and 10 before appreciative capacity audiences. The comedy was presented under the auspices of the Combined Musical and Dramatic Clubs of the University.

"The Rajah of Kashmir" was universally conceded to be the best musical comedy yet produced at Northeastern and also as elaborate and entertaining a production as could be expected from any college. The plot, written by A. F. Vinal '27, who also acted the part of the villain, was entertaining and well thought out. The acting of the principals in both male and female parts was excellent, and there was some fine singing. The Rajah played by C. A. Pope '29, had a remarkably fine voice, and Pope was also well fitted for the part by his appearance and acting ability. L. J. Prior, as Hercules Ramm, was the comedian and central figure of the production, and added to his previous fame. The music, composed mostly by A. F. Comstock '27, was exceptionally fine for a college production and the playing by the show orchestra, under the leadership of M. Rich '27, was faultless. The executive ability of R. P. Todd '27, was demonstrated by the smooth manner in which the business and general production details of the show were managed.

If future Northeastern Musical Comedies measure up to the standard established by this one they will surely be annual events to look forward to with pleasurable anticipation.

WRESTLING

The wrestling team won three intercollegiate dual meets against M. I. T., Tufts, and Norwich, dropping contests with Tufts and Springfield. In the New England intercollegiates, the team placed fifth. Mowatt was runner up in the 115-lb. class against Turner of Harvard. A banquet, April 8, wound up the season.

SOCCER

The team played good all-round soccer, which may be shown by the fact that nine men contributed toward the scoring. The high scorers were Howard with six goals, and Melcher with five scores. Bury scored three goals. Scussell has two scores to his credit, while Captain Kupka, Urquhart, A. N. Rae, Bancroft, and Stewart added one score each to the total. There was no individual star of the season. Urquhart starred in the W. P. I. game, Bury and Ewer at the Harvard game, Melcher and Scussell at the Bridgewater game, Smith and Howard at the first game with Clark, Captain Kupka and Foster at the M. I. T. game, and Stewart, Burton, and Bancroft at the final game with Clark.

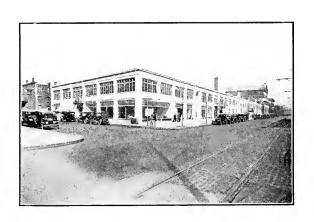

IN-BETWEEN EVENTS

As the Cauldron copy goes to the printer, we are in the midst of a very busy season in school affairs. The Junior Prom, which promises to be an unusually elaborate affair, is very near. A Sophomore Hop is being arranged to take place in the near future. The Public Speaking Contest is in the offing. The spring schedule of classes, allowing afternoon activities, is in effect, and the baseball and outdoor track seasons have opened. And through all this, the seniors are plugging away at their theses.

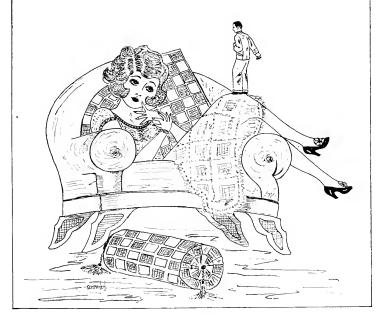

COMING EVENTS

"Pops" Night at Symphony Hall. Field Day, June 12. Senior Ball.

The Track Season

Coach Zeller

N. U. 67 - W. P. I. 10

The varsity track team started off the winter season against Worcester Poly on February 13, easily defeating the opponents and breaking five college records. Capt. Breive accounted for two of the marks by running the 45 in 5 seconds flat and the 300 in 34 4-5 seconds. Stanley Earle, who promises to be one of our best middle distance runners, followed suit, breaking the tape in 1 minute 21 seconds in the 600. L. S. MacKnight cleared the bar at 5 feet 10 inches for a new high jump record. The last record was broken when H. Jewell, C. W. Hunt, R. E. Slocombe, and A. M. Breive ran the two-lap relay in 2 minutes 15 seconds.

G. R. Tatton won the high hurdles in his usual 61-5 seconds. L. J. MacKenna put the shot 35 feet, and S. W. Marshall won both the 1000 and mile runs.

N. U. 34 — B. U. 43

The Boston University tracksters were set on making up for the close defeat at our gym last year. Morrill, the diminutive Terrier sprinter, beat "Gus" Breive and "Charlie" Hunt to the tape in the

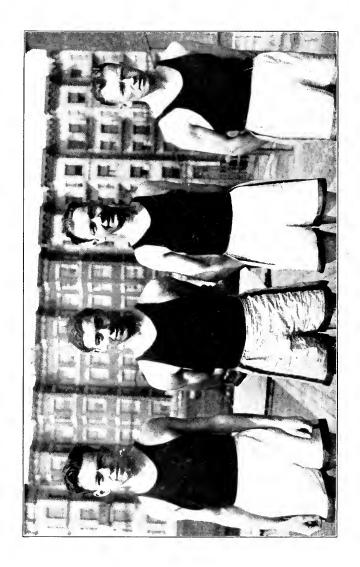

40 in 41-5 seconds. Breive came back in the 300, winning from Onthank of B. U. by 10 yards in 35 flat. "Jerry" Tatton broke through the board track in the high hurdles, thus losing the race to Welch of B. U. "Stan" Earle looked great in the 600, winning a close race from Campbell, the Terrier middle distance star. N. U. was only able to get a third in both the mile and 1000 when Ross and Audano followed the flashy B. U. distance men across the finish line.

Our field event men came through better than expected, with MacKnight, Tatton, and Morley gathering five points in the high jump, and Hamilton and Plett totaling four between them in the shot put. Boston University relay received its second setback when Jewell, Audano, Slocombe, and Breive came through with fifteen yards to spare.

Manager Parsons

N. U. 37 — BATES 40

The Bates track team brought the bacon back to Lewiston, Maine, succeeding in collecting three more points than our men were able to gather together. Capt. Breive came through as usual and won the 45 and 300-yard dashes, equaling his own record in the latter event. S. Earle defeated Sanella, his Bates rival, in the 600, also equaling his own record of 1 minute 21 seconds. These Bates runners were phenomenal distance runners, shutting out our entries in both the 1000 and mile runs.

Northeastern gathered another first when G. R. Tatton broke the tape in the high hurdles. The high jump record was raised to 5 feet 10½ inches when L. S. MacKnight beat G. R. Tatton out for the first place in that event. P. W. Hamilton was only able to get third place in the shot put. Jewell, Hunt, Earle, and Breive, the members of the varsity relay team, put the Y track relay record down to 2 minntes 13 2-5 seconds which will be hard to beat.

The prospects look very bright for the spring track season in all departments of the game. Points are bound to be earned in the weight events for N. U. with such men as P. W. Hamilton, W. P. Raffone, W. P. Plett, L. J. MacKenna, C. G. Johanson, and J. J. Sylvester working daily under Coach Zeller. Our best men in the dashes are Capt. Breive, C. W. Hunt, S. Earle, H. Jewell, and R. E. Slocombe. S. Earle, H. Jewell, Barrows, and Barrett will run the middle distances, while Coach Parson will rely upon S. W. Thompson, A. Ross, W. T. Simons, and P. S. Kallelis in the distance runs. L. S. MacKnight, G. R. Tatton, and J. T. Morley are expected to show up well in the high jump, while J. J. Sylvester and R. E. Slocombe will uphold the Red and Black in the broad jump event. The most promising pole vaulters are S. S. St. Pierre, G. E. Martin and G. P. Roberts.

Relay Team Review

The varsity relay team has completed a most successful season with six victories in as many starts against Tufts, Worcester Polytechnical Institute, University of Maine, Boston University, and Bates.

The first victory was the defeat of the Jumbo runners at the Knights of Columbus meet on January 30, at the Mechanics Building. Jewell took the lead at the first corner and from that time it was merely a matter of how great a distance would separate the anchor men on the gun lap.

The next victims of our invincible relay team were the W. P. I. tracksters who were defeated by about thirty yards in the B. A. A. meet. The Worcester Engineers put up a good fight but were unable to cope with the speed of the Parsons coached runners.

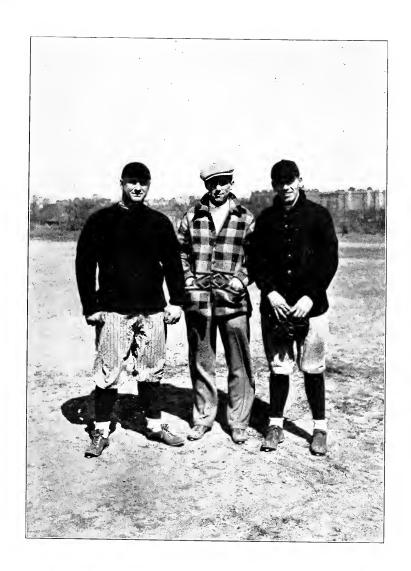

The Northeastern relay team upset the dope when they turned the University of Maine quartet back to Orono with a defeat on Washington's Birthday at the East Armory. Roundsville of U. of M. proved to be too fast for Jewell, but Hunt acted the part of the hero and made up for the handicap, which Earle and Breive added to in turning in the fastest time at the American Legion Meet.

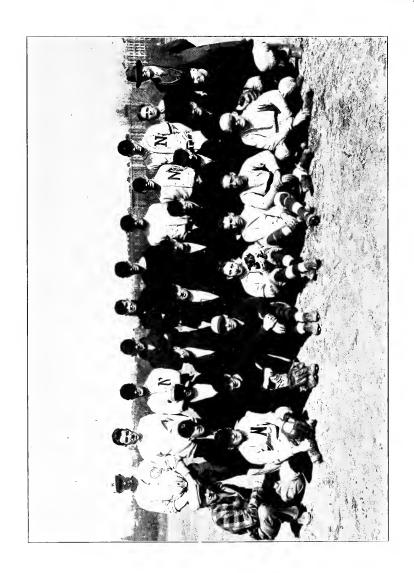

On February 13 in the dual meet with W. P. I., the school record for the two-lap relay was broken by one second, although the Worcester Engineers offered little competition.

The Terrier relay team received its first defeat of the season at the hands of the Northeastern quartet in the final event of the dual meet at the B. U. outdoor board track on Bay State Road. The lead changed hands twice during the course of the eight laps, but Captain Breive passed his man quickly and broke the tape about twenty yards in the lead.

The closing event of the winter season was the breaking of the college record in the two-lap relay by 2 3-5 seconds, by the regular varsity team in the Bates meet. The men were never headed but the Bates men did not give up the chase.

CAPTAIN FRANK DENNIS

1926 Baseball Season

Manager C. D. Day

Because of the ineligibility of Captain-elect Freeland it was necessary to elect a new captain. The election resulted in the choice of Frank L. Dennis for captain.

The first call for battery candidates was issued March 3, by Coach Bond. Cage practice was held in the Samuel Johnson Memorial Gymnasium for about three weeks, with forty candidates reporting regularly.

Owing to adverse weather conditions it was impossible to get out of doors until the last of March, when practice was held daily in the Fenway. The last call for remaining candidates brought about forty additional men for the fielding positions.

With ten varsity letter men back, prospects look bright for the coming season. The incoming Freshman class has brought forth some material which

looks mighty promising: Somerville, a port side hurler; Richardson, another left-hander; Mahoney, a mighty aggressive back stop; and Ranney, a utility man.

The absence of Freeland from the squad brings the necessity of developing a new first baseman. At present Gray, varsity catcher last year, is holding down the job. The other infield positions are all held down by veterans in Mader, Pender, and Meehan. The outfield will be patrolled by Captain Dennis, Flynn, Vines, a new man, Simms and Raffone, basketball stars, and Ranney.

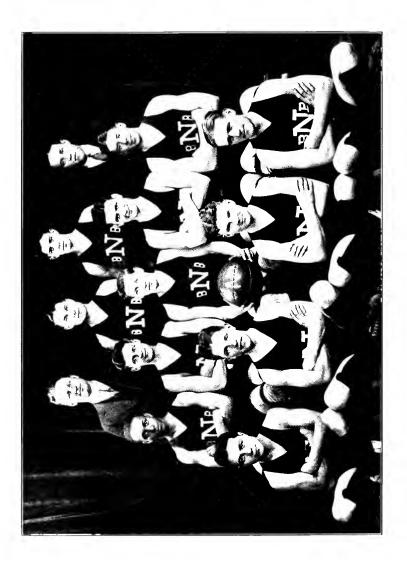

The trip this year will again be up through northern New England into New Hampshire and Vermont, taking in University of New Hampshire at Durham, and Norwich in Northfield, Vermont.

An analysis shows prospects of a successful season and the team should turn in a creditable record for itself.

Basketball

February 27, 1926, brought to a close one of the most successful seasons that a Northeastern five has ever experienced. To win eight out of fifteen contests, competing against some of the best college teams of the East, is an accomplishment which is hard to parallel. With four letter men and a wealth of material available, Coach Bond developed a team which made a very creditable showing.

The season opened with Trinity, at home, which was one of the fastest games played on the home floor, and only a superb fighting spirit enabled the N. U. five to win 25-21.

The Tufts team proved the superior team when they won 28-19, but the issue was not decided until the few final minutes of play.

Seeking revenge for the setback by Tufts, the N. U. team won three games in rapid succession, defeating Bridgewater Normal, 46-15; Fitchburg Normal, 30-22; and Lowell Textile, at Lowell, by the close score of 34-33. This last was one of the most exciting games of the season and the score was in doubt until Captain Renker caged a miracle shot just as the timer's gun ended the overtime period.

Technology won the contest at Cambridge by a score of 35-22. The score was close at all times but "Tech" held a slight lead which Northeastern was unable to overcome.

Manager Heywood

The next two home games, Rhode Island State and Lowell Textile, were easy victories for the N. U. five. Determination was the big factor in defeating Rhode Island State, 43-25, while Lowell Textile lost its second game to Northeastern with a score of 44-24.

Boston University, playing perfect basketball, and displaying wonderful passing, won from N. U. 36-29. Showing the results of several hard games, the Northeastern five did not play up to the usual standard.

Fighting bitterly to the end, a strong M. I. T. team went down to defeat on the home floor with a score of 25-22. The playing of Captain Forrester of "Tech" was one of the features of the game.

The victory over "Tech" proved an incentive for the team to win from Clark University at Worcester, the score standing 44-26.

The schedule then called for a southern trip which proved disastrous to a perfect schedule. Captain Renker received a fractured nose, which probably accounts for some of the low scores. During this trip Northeastern lost three games, the score with Upsala standing 40-27; St. John's, 27-17; and Rhode Island State, 40-29.

The final game of the season with Tufts was a real disappointment, the Jumbo team winning over a crippled N. U. team, 17-15. Captain Renker was out of the game with a fractured nose, and early in the game, "Billy" Kobera was injured.

There was practically no individual star of the season, although Kobera was the high point scorer. All the men played consistent basketball and should be complimented on their showing. Varsity letters were awarded to the following men in recognition of their splendid work: Captain Renker, Manager Heywood, W. F. Kobera, G. P. Roberts, L. R. Simms, W. P. Raffone, J. J. Sylvester, and J. R. Janssen.

A NORTHEASTERN UNIVERSITY STUDENT'S SPEECH AT THE EIGHTY-SEVENTH APPEARANCE OF MINCE PIE AT ONE OF BACK BAY'S VITAMINE EMPORIUMS

(Apologies to Lincoln)

Fourscore and seven years ago our landlady brought forth upon this student boarding house table a mince pie constructed in the kitchen and dedicated to the proposition that we should eat it. Now we are engaged in the eating of that pie, testing whether our teeth or anybody else's teeth so constructed and so enameled can chew that pie. We have come to dedicate a portion of our teeth to a final resting place with the teeth of those who here gave their teeth that that pie might be eaten.

It is altogether fitting and proper that we should do this, but in a larger sense we cannot masticate, we cannot digesticate, we cannot swallow that pie.

The brave Northeastern men, living and dead, who ate here have made little or no impression that might add or detract. Our landlady will little note nor long remember what we say here as long as we pay our board bill. It is for us, the living students, rather to be here dedicated to the unfinished pie, which those students who ate here, have thus so far nobly eaten. It is rather for us to be here dedicated to the unfinished pie remaining before us; that from these honored dead we take knives, forks, and bayonets and attack that pie for which they gave their last full sets of false teeth. That we here highly resolve that this pie, composed of ingredients too numerous to mention, shall have a new consignment of molars and that this pie, to the students, for the students and to ruin and kill the students shall and must perish from the earth.

ROBERT ERICKSON, '26

A Scotsman was visiting Niagara Falls in the company of an American friend. As they watched the great rush of water the American said:

"There's a story that says if you throw a penny into the falls, it will bring you luck."

"Is that so?" inquired the Scot. He considered a moment, and then asked hopefully, "Ha'ye got a bit o' string?"

"Say, farmer, if all flesh is grass, you must be a load of hay."

"I suspect I am, stranger, from the way asses are nibbling at me."

A corkscrew is a sort of a life-saving safety-pin used by a deep-water sailor as a substitute for the regulation suspender button.

Prof. in English: "Give an example of a collective noun." '26: "Hash."

"Bring my lawyer and my doctor here," moaned the sick man; "I want to quit this world square and I'll pay their bills at once. Everything all right? Now that I've paid both you gentlemen I have just one more request to make. I want one of you on each side of me, with your arm around my neck, when I kick in."

"Anything to please you, Sir, but why such an odd request?"

"I want to pass away like Our Lord, between two thieves."

A professor asked a class with what weapon Samson slew the Philistines. He got no reply.

"What is this?" he asked, pointing to his jawbone.

"The jawbone of an ass!" was the prompt reply of a scholar.

LOVE-LIFE OF AN ENGINEERING STUDENT

Fools may sing of hearts and love
And eyes and cheeks and hair —
Write sonnets to a woman's glove
And swear her wondrous fair.
Bah! She's an artificial thing:
All powder, paint, and lipstick—
But hearken to the song I sing,
And hail my love, the slipstick!

Women are babbling all the time
Of dates and drinks and dresses,
Which wouldn't help at all when I'm
Computing torques and stresses.
It conquers without fear or doubt
Whole hosts of sines and surds,
And helps me work in peace without
An avalanche of words.

Slide-rules are always accurate,
And women never so;
And while they're not affectionate,
They never answer "No!"
So hence with women's wanton ways,
With eyebrows, lips, and curls:
My little duplex polyphase
Is worth a dozen girls!

Z. U. G.

"It's the little things in life that tell," said the girl as she dragged her kid brother from beneath the sofa.

Z. U. G.

The soup without the noodles,
The ship without the sail,
Is not so bad as when you get
A shirt without the tail.

Z. U. G.

Electric lights on the blink,
He turns on the gas;
She doesn't think—
She knows, he's an ass.

THE MAN WORTH WHILE IS THE MAN WHO STRIVES

It is not the critic who counts.

Not the man who points out how the strong man stumbled, or where the doer of deeds could have done them better.

The credit belongs to the man who is actually in the arena:

whose face is marred by dust and sweat and blood;

who strives valiantly;

who errs and comes short again and again because there is no effort without error and shortcoming:

who does actually strive to do the deeds;

who knows the great enthusiasm, the great devotions, and spends himself in a worthy cause;

who at the best knows in the end the triumph of high achievements and

who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who know neither victory nor defeat.

TO THE LAST DETAIL

Although far removed from the eyes of man, the frieze in the pediment of the Parthenon of ancient Athens is noted for its consummate perfection. For, as its builders remarked, "The Gods see everywhere."

The builders of Condit switchboards and switch housings have a similar conception of perfection. Every detail, hidden as well as prominent, must be absolutely right.

For safety enclosed switchboards, removable truck type, bench boards, automatic electrical and manual controlled switchboards,
